## **OBJECTIVE**

To secure a position in software engineering that leverages my strong passion for programming, problem-solving abilities, and commitment to learning, while gaining valuable real-world experience and contributing to a dynamic and close-knit team.

## **EDUCATION**

### **St. Petersburg College**

*Associate of Arts*

**Seminole, FL**

*Expected Graduation May 2024*

### **Largo High School**

*High School Diploma*

**Largo, FL**

*Expected Graduation May 2024*

## **PROFESSIONAL EXPERIENCE**

### **Publix Supermarkets**

*Customer Service Staff*

**Largo, FL**

*March 2022 – Present*

- Processed money services transactions for customers, including sending and receiving Western Union payments and money orders, often totaling more than \$1000, cashing payroll and personal checks, and balancing cash drawers.
- Handled customer complaints, concerns, comments, and compliments, while listening empathetically and reacting accordingly in a professional manner.
- Managed, sold, and paid out lottery tickets to customers, while developing genuine customer service relationships, balancing the lottery drawer, loaning significant amounts of money between registers ad hoc, managing incoming phone calls, handling multiple customers at once, and responding to any front-end cashier's needs.

### **Entrepreneurial**

*Frontend Website Developer*

**Pinellas Park, FL**

*June 2020 – August 2020*

- Designed and created a landing page for a local pizza shop including the menu, ordering page, and an about us section.
- Utilized web development skills to ensure smooth navigation, responsive design, and optimal user experience, enhancing the online presence of the business.
- Discussed with client concerning website's needs, requirements, features, any desired media/written content, and implemented them accordingly while providing progress reports.

## **ADDITIONAL SKILLS**

- Exceptional critical thinking and problem-solving skills, especially with regards to programming.
- 6+ years of experience building projects using Node.js, including significant usage of important frameworks and tools such as React.js, Express, Socket.io, Prisma, and Tailwind.
- 3+ years of experience utilizing Typescript to develop full-stack applications and deploying them with Heroku and AWS.
